ABSTRACT

Austin's results are presented for the Iowa Tests of Basic Skills (ITBS) for grades 7-8 and the Sequential Tests of Educational Progress (STEP) for grades 9-12 for 1980-81. Results are presented for each campus as well as for the district. School and district characteristics accompany these results to describe the general context in which these achievement scores were collected. The ITBS measures achievement in reading, language, work-study skills, and mathematics. The STEP is a battery of achievement tests designed to measure student skills in the areas of reading, English expression, mathematics computation and basic concepts, and social studies. Special education students were exempt from the testing, and limited-English-proficient students were excused based on the teacher's judgment. Summaries of the results of the ITBS for students in each junior high school and of STEP for students in each senior high school are given. Achievement summaries are presented separately by grade, for the total group. Summaries for three ethnic groups are reported. All test results are reported by the median, first quartile, and third-quartile scores. These scores are reported as "percentile ranks", based upon a nationwide sample of students at each grade level. (Author/GK)

FOREWORD

The following pages record the results of the Iowa Tests of Basic Skills (ITBS) for grades [illegible]-8 and the Sequential Tests of Educational Progress (STEP) for grades 9-12 for 1980-81. Results are presented for each campus as well as for the District. School and District characteristics accompany these results, in order to describe the general context in which these achievement scores were collected.

Although the data presented here must be viewed and interpreted with the cautions outlined below, it is still important to reaffirm that the test results do provide some valid information about the status of AISD students in the skills areas tested. It is hoped that school staffs, administrators, and the community at large will consider the implications of the test data for both school and community action. Reasons for the test results will almost never be simple or clear-cut. Test results tell us whether or not a problem exists; they cannot tell us the cause of the problem, nor advise us of the best remedy. Creative thinking and a thorough knowledge of the community, the school and the curriculum are all necessary for understanding the implications of these test results.

DESCRIPTION OF THE TESTS

The ITBS measures achievement in reading (vocabulary and comprehension), language (spelling, capitalization, punctuation, and usage), work-study skills (reference materials and visual materials) and mathematics (concepts, problems, and computation). The STEP is a battery of achievement tests designed to measure student skills in the areas of reading, English expression, mathematics computation and basic concepts, and social studies.

The ITBS was administered at each junior high school and the STEP at each high school using a standardized administration script and following standardized written instructions provided to every teacher and counselor. Additional information on the ITBS and STEP tests, on systemwide results, and on interpretations of the ITBS and STEP data can be found in the 1980-81 Evaluation Findings (Publication Number 80.32) and the 1980-81 Systemwide Evaluation Final Technical Report (Publication Number 80.39).

DATA LIMITATIONS

The reader should be aware of some limitations in these data:

A. Identification of Students Excluded From Testing.

   1. Special education students enrolled in an integrated (self-contained) special education classroom were exempted from junior high ITBS and high school STEP testing in 1979-80.

2. Scores for students who were classified as monolingual or dominant in a language other than English are not included in school or District ITBS or STEP summaries. These classifications were made on the basis of individual administrations of Listening subtest of the Comprehensive English Language Test to all students for whom English was not obviously the dominant language.

During the 1980-81 school year, students were excluded from testing and/or summary reports according to the following conditions.

1. Special education students were exempted from ITBS and STEP testing by the local Admission, Review, and Dismissal (ARD) Committees. Students whose ARD Committees had not yet made a determination regarding their inclusion in or exclusion from testing for 1980-81 could be exempted at the discretion of the teachers and principal. The following guidelines were issued to use in reaching these decisions:

   a) A special education student who receives the majority of instruction from a regular classroom teacher in a subject area measured by a standardized test should take the test in that area.

   b) Most students receiving more than three (3) hours per day of special education services should be exempt from standardized testing.

   c) A student receiving three (3) hours or less per day of special education services who cannot be tested validly on a standardized test should be exempt.

   d) A special education student who cannot make a valid score on a standardized test may be tested if inclusion in the testing experience would be of benefit to that student in other ways.

   Scores for special education students receiving more than three (3) hours of special education assistance per day were excluded from junior high ITBS and high school STEP school and District reports for 1980-81.

2. Limited-English-proficient (LEP) students were not exempt from testing. However, after the administration of the first subtest (Vocabulary on the ITBS and Math Basic Concepts on the STEP), LEP students who were dominant or monolingual in a language other than English could be excused from other tests if the teacher judged that the student could not understand English well enough to answer about one out of four items correctly. This determination was to be made for each test separately since a LEP student who may be unable to take a reading comprehension test may be able to do reasonably well on a math computation test. Scores for LEP students dominant or monolingual in a language other than English were

excluded from junior high ITBS and STEP school and District reports for 1980-81.

B. Testing Environment.

Each year the Office of Research and Evaluation (ORE) prepared a set of detailed testing guidelines to be followed for every teacher, counselor, and principal in the District. Feedback from school staff and ORE personnel monitoring in the schools each year have indicated that for the most part these instructions were adhered to, and that testing conditions were reasonably good and consistent across the District.

C. Test Scoring.

ITBS and STEP answer sheets were machine-scored in 1979-80 and 1980-81. A very small error factor due to incompletely marked answers, incompletely erased answers that were changed, or stray marks on the answer sheet is probably present.

HOW TO READ THE PROFILES

The following pages present summaries of the results of the Iowa Tests of Basic Skills (ITBS) for students in each AISD junior high school and of the Sequential Tests of Educational Progress (STEP) for students in each AISD senior high school. Achievement summaries are presented separately for each grade, for the total group of students. In addition, summaries for three ethnic groups (Black, Hispanic, and Anglo/Other) are reported. Where applicable, scores for matched groups are presented to provide a means for comparing achievement of the same students over a two-year period. The matched group scores reflect achievement of those students who took the tests in both of the past two years.

All test results are reported by the median score, and by the first-quartile and third-quartile scores. The median score for a given grade within a school is the middle score for that particular group of children, or the score which half of the students scored higher than and half scored lower. It is a good indicator of the typical performance for that group of children. Likewise, the third-quartile score is the score that 25% of the students scored above, and the first-quartile score is the score that 75% of the students scored above.

These scores are reported as "percentile ranks", which are based upon a nationwide sample of students at each grade level who completed the ITBS or STEP prior to their publications. The scores made by these nationwide samples of students at each grade level were used to establish reference points for evaluating the performance of all subsequent groups of students at the same grade level who are administered the tests. The nationwide median score is the score that was surpassed by exactly half of the students at that grade in the national norm group. The median score is therefore the fiftieth percentile rank, which is the point that divides the top 50% from the bottom 50% of the students at each grade in the nationwide norm group. Similarly, the third-quartile score is the score that was exceeded by only 25% of the nationwide group, and the first-quartile score is the score that was exceeded by 75% of the national group. These two scores are, respectively, the 75th and 25th percentile ranks.

Therefore, if a given grade within a school has a median score of 60, this means that the middle score for that particular group of students was the 60th percentile rank, or the score that was exceeded by only 40% of the students at that same grade in the nationwide norm group. Any median percentile rank higher than 50 is higher than the median for the norm group at that grade level, and any median lower than 50 is lower than that for the norm group. Likewise, any third-quartile score higher than 75 is higher than that for the norm group and any first-quartile score higher than 25 is higher than that for the norm group.

There are separate pages of achievement profiles for the ITBS in math, reading, language, and work-study, for each grade within each AISD junior high school. There are separate pages of achievement profiles for the STEP for each grade within each AISD senior high school. The reading, English expression, math computation, math basic concepts, and social studies STEP results are included on the same page for a particular grade level.

Achievement summaries are provided for the total group and for each of three ethnic groups (Hispanic, Black, and Anglo/Other). Three sets of scores are reported for each of these groups:

1. All 1980-81: The scores for all students tested at that grade in 1980-81 who are included in summary reports.
2. Matched 1980-81: The 1980-81 scores of those students who took the achievement tests (ITBS or STEP) in both 1979-80 and 1980-81.
3. Matched 1979-80: The 1979-80 scores of those students who took the achievement tests (ITBS or STEP) in both 1979-80 and 1980-81.

The number of students tested each year is recorded here, also, along with the percentile scores which correspond to the median, third-quartile, and first-quartile points for the national norm group.

SCHOOL CHARACTERISTICS

The school characteristics accompanying each school's achievement data are reported to give the reader an idea of the context in which the achievement data were collected. The current set of six characteristics reported does not exhaust all important information about the school.

7

Membership

The membership figure is calculated by taking the aggregate days of membership (i.e., the total number of days' membership of all the students) and dividing it by the number of days in the school year. This information is recorded by AISD's Office of Child Accounting, and is published annually in the "Average Daily Membership by Schools for the Entire Year" report, as the official figures for the District.

Percent Attendance

The percent attendance is calculated by taking the average number of enrolled students present each day (including special education students), and dividing this by the average daily membership. This information is published annually by AISD's Office of Child Accounting in a report entitled "Average Daily Attendance by Schools for the Entire Year," as the official figures for the District.

Pupil/Teacher Ratio

The pupil/teacher ratio (PTR) reflects the average number of regular students per teacher in each school. Secondary PTR figures are computed separately at each school by dividing enrollment (near the end of September of each school year) by the total number of teachers. The PTR as reported here probably underestimates the class size in required courses because:

1. Teachers teach five periods, not six.
2. A large number of electives, advanced courses, and remedial sections are necessary in a modern secondary program, and these courses are likely to have small numbers of students.
3. Coaches, newspaper sponsors, department chairmen, and others on special assignment carry a reduced load.
4. Enrollment in a particular department may vary from semester to semester and, if it drops significantly, there may be no opportunity to redistribute the teaching personnel to another area.

Percentage Low-Income Students

This figure is the number of students qualifying for free or reduced-price lunch, divided by the average daily membership for the third six-weeks. The free and reduced-price lunch counts were gathered by the Title I evaluation staff in January, 1981, based on information supplied directly by the schools. The counts are published in an Office of Research and Evaluation report, Needs Assessment for the Preparation of the ESEA Title I Application. (Publication Number 80.81). Refer to that report for further information.

Ethnic Distribution

The "ethnic distribution" figures reflect the percent of enrolled students, on October 1st of each school year, who are Hispanic (H), Black (B), and Anglo/Other (A/O). These percentages are based on the Ethnic Composition of Students" report, issued by the AISD Office of Child Accounting.

The assignment of students to ethnic categories involves some error, such as the use of Hispanic surname as a basis for assigning a student to the Hispanic category. About 1% of AISD students are American Indian or Asian, and are included in the Anglo/Other percentages reported. Notwithstanding these problems, the figures reported here are probably accurate ± 2 percent.

Major Special Programs

Listed under "Major Special Programs" are programs which bring additional resources to a number of schools in the District and which are operative in the particular school under consideration. This list is an attempt to name the major programs at each school without listing every resource a school has. The following criteria were used to determine which programs to include:

1. Does the program provide additional inputs (e.g., staff, materials, training) to the school's resources? By this criterion, changing curricula is not a major special program, since inputs (materials) were changed, not added.
2. Is the program on at least two secondary campuses, or six elementary campuses, or four campuses each for elementary and secondary, but not on all campuses? By this criterion, Special Education is excluded because it operates in all schools.
3. Is it possible to argue a direct causal effect of the program upon achievement in the skills areas measured by the ITBS (junior high) or STEP (high school)?

The programs that met these criteria at the secondary level in 1980-81 are as follows:

ESOL - English for Speakers of Other Languages. Students who have been identified as of limited English proficiency (LEP) and any other students needing special help with English are served in ESOL classes, which provide instruction in English.

Local/State Bilingual - Any student who meets the following criteria is eligible for the Local/State Bilingual Program in AISD:

a) Enrolled in grades K-8;

b) Responded "Spanish" to any of the three questions on the Survey of Home Languages; and

c) Scored below 29 (level 5) on the Comprehensive English Language Test (CELT).

This program provides bilingually certified teachers and/or remedial instruction in English to qualified students.

Title I Migrant - Students whose parents or guardians are migratory farm workers or fishermen and have migrated within the past five years are eligible for services under the Migrant Program. Such services include instructional and parental involvement services, medical care, and clothing.

SCE - State Compensatory Education. Funds provided by the State of Texas through SCE financed a variety of instructional inputs, including at the secondary level:

a) Writing Composition Labs at three high schools and two junior highs,

b) junior high summer school program,

c) materials and staff development for ESOL and junior high summer school teachers, and staff development for the Texas Hill Country Writing Project, and

d) a Transitional Bilingual Education (TBE) program at Pearce Junior High School.

SCE funds were also used in carrying out the State-mandated Texas Assessment of Basic Skills (TABS) testing at grade levels 3, 5, 9, and 10.

Community Schools - Jointly sponsored by the City of Austin and Austin ISD, this program is aimed at meeting the educational needs of the whole community. Coordinators at eleven elementary campuses and two junior high school campuses work with school personnel to put together a program offering a wide variety of activities in the areas of academics, arts and crafts, culture, recreation, vocation, and self-help. Among the student-oriented activities are tutoring in reading and mathematics, reading and math enrichment, writing, science, and study skills. Enrollment in community schools is not restricted to students residing in the school's attendance zone. Community school programs may therefore influence achievement at campuses other than the ones where they operate.

Instrument Description: Iowa Tests of Basic Skills, 1978 Edition, Form 7

Brief description of the instrument:

Levels 7 and 8 were given to grades 1 and 2, respectively, to measure skills in the areas of Word Analysis, Vocabulary, Reading Comprehension, Spelling, Math Concepts, Math Problems, and Math Computation. ITBS levels 9-14 were administered to grades 3-8 with the test level for students in grades 4-6 chosen on the basis of their previous achievement scores (with teacher review). Levels 9-14 include subtests in all the areas mentioned for levels 7 and 8, except for Word Analysis. In addition, levels 9-14 include subtests measuring Capitalization, Punctuation, Usage, Visual Materials, and Reference Materials.

To whom was the instrument administered?

All elementary and junior high students, grades 1-8. Special education students were exempted as per Board Policy 5127 and its supporting administrative regulation. Students of limited English proficiency (LEP) were not exempt, but could be excused after one test on which they could not function validly. Scores for students who were monolingual or dominant in a language other than English were not included in the school or District summaries.

How many times was the instrument administered?

Once to each student.

When was the instrument administered?

The elementary schools administered the test April 28, 29, and 30, 1981. The dates for the junior high administration were February 17, 18, and 19. Tests were administered in the morning. Make-ups were administered the week after the regular testing.

Where was the instrument administered?

In each AISD elementary and junior high school, usually in the student's regular classroom.

Who administered the instrument?

Classroom teachers in the elementary schools. In the junior high schools, the counselor or principal administered the tests over the public address system using taped directions provided by ORE. Teachers acted as test monitors in their classrooms at these schools.

What training did the administrators have?

Building Test Coordinators participated in planning sessions prior to the testing. Teacher training was the responsibility of the Building Test Coordinator. However, teacher inservice training was available from ORE upon request. Teachers and counselors received written instructions from ORE, including a checklist of procedures and a script to follow in test administration.

Was the instrument administered under standardized conditions?

Yes. Standardized instructions were distributed. ORE personnel monitored in a random selection of classrooms with results indicating that testing conditions were reasonably consistent across the District.

Were there problems with the instrument or the administration that might affect the validity of the data?

No known problems with the instrument. Problems in the administration are documented in the monitors' reports which are available at ORE.

Who developed the instrument?

The University of Iowa. The ITBS is published by the Riverside Publishing Company (Houghton Mifflin Company).

What reliability and validity data are available on the instrument?

The reliability of the subtests, as summarized by Kuder-Richardson Formula 20 coefficient, ranges from .50 to .98, across subtests and levels. The issues of content and construct validity are addressed in the publisher's preliminary technical summary, pp. 13-15.

Are there norm data available for interpreting the results?

Norm data are available in the Teacher's Guide. The Teacher's Guide provides empirical norms (grade equivalent, percentile, stanine) for the fall and spring. Interpolated norms are available for midyear. National, large city, and school building norms are available.

Instrument Description: Sequential Tests of Educational Progress (STEP), Series II, Forms A & B

Brief description of the instrument:

Series II of the STEP is a norm-referenced high school achievement test battery, measuring student skills in Reading, English Expression, Mechanics of Writing (Spelling, Capitalization, and Punctuation), Math Computation, Math Concepts, Social Studies, and Science. In 1980-81 AISD used a subset of the complete battery, omitting the Mechanics of Writing and Science tests. These tests will be given every other year, alternating with the English Expression and Social Studies tests. Only the Reading, Math Computation, and Math Concepts subtests are used for graduation competency purposes. Half of the AISD high schools used From A of the STEP and half used Form B.

To whom was the instrument administered?

All students in grades 9-12. Special education students were exempted as per Board Policy 5127 and its supporting administrative regulation. Students of limited English proficiency (LEP) were not exempt, but could be excused after one test on which they could not function validly.

How many times was the instrument administered?

Once to each student.

When was the instrument administered?

The STEP was administered over a two-day period--March 31 and April 1. Tests were administered in the morning from about 8:30 until approximately noon each day. Make-ups were administered on two consecutive Saturdays, April 25 and May 2.

Where was the instrument administered?

The STEP was administered at each AISD high school (including Robbins and Kealing). Make-ups were administered at Reagan High School.

Who administered the instrument?

Test instructions were given over the public address system at each school, either by the counselor or by a tape recording provided by ORE. Teachers acted as test monitors in each classroom. The make-up testing was administered and monitored by ORE personnel.

What training did the administrators have?

Teachers and counselors received written instructions from ORE, including a checklist of procedures and an exact script to follow in test administration. The ORE personnel who administered the make-ups were thoroughly trained in administering tests.

Was the instrument administered under standardized conditions?

Yes. Standardized instructions were distributed. ORE personnel monitored in a random selection of classrooms with results indicating that testing conditions were reasonably consistent across the District.

Were there problems with the instrument or the administration that might affect the validity of the data?

No known problems with the instrument. Problems in the administration are documented in the monitors' reports.

Who developed the instrument?

Educational Testing Service (ETS). The STEP is published by Addison-Wesley Publishing Company, Inc.

What reliability and validity data are available on the instrument?

The reliability of subtests in the alternate forms, A and B, ranges from .58 to .93, with parallel forms correlations. As summarized by Kuder-Richardson Formula 20 coefficients, the reliabibity of the subtests ranges from .83 to .94. The issues of content and construct validity are addressed in the publisher's technical report, pages 150-154.

Are there norm data available for interpreting the results?

Mean, median, percentile rank, percentile band, converted, and stanine scores are available for each subtest of the STEP.

BRIEF DEFINITION

MEMBERSHIP: The number of students on the current roll of the school (including regular and special education students) averaged for the entire year.

PERCENT ATTENDANCE: The percentage of students on the current roll who actually are present (including regular and special education students) averaged for the entire year.

PUPIL/TEACHER RATIO: The average number of students (regular and resource) per regular classroom teacher in the school.

% LOW-INCOME STUDENTS: The percent of students at the school who qualify for free and reduced lunch, based upon the third six-weeks membership.

ETHNIC DISTRIBUTION: The percent of enrolled students on October 1st who are Hispanic (H), Black (B), and Anglo/Other (A).

MAJOR SPECIAL PROGRAMS: Programs bringing additional resources to a number of schools in the District, having a direct effect on achievement, and operating in this school.
